« We decorate floors and walls »

"

Certain places inevitably evoke emotions. To ensure that memories are positively anchored there, we like to infuse them with soul through the ancestral craft of mosaic.

You're looking for a high-quality,
custom-made medium ?

We create contemporary and graphic mosaics.

From conception to installation, we offer a comprehensive and unique service.

Each mosaic is entirely handcrafted.

Our materials are durable and made in France.

We use "grès cérame" and "émaux de Briare" tiles that are high-quality and suitable for heavy traffic, both indoors and outdoors, on floors and walls.

Dressing up storefronts

We offer a tailored solution designed specifically for the retail sector, incorporating distinctive architectural elements. With custom entryway mats and brand-inspired murals, we create a unique and artistic journey for your customers.

Murals in Mosaic

With Victoria, we experimented with using larger tiles made of glazed porcelain tiles.

Handcrafted with care, our goal was to capture the spirit of street art by creating large-scale mosaics, ideal for expansive outdoor surfaces or facades.

Mosaic Artwork & Art Objects

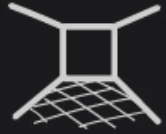

Mosaic art is a craft that blends tradition and innovation, requiring technical mastery and profound artistic sensitivity. It demands the precise capture of proportions, volumes, and emotions in a subject. Each tessera, through its placement and color, contributes to the illusion of light, shadow, and motion.

Drawing inspiration from ancient techniques while embracing modern visions, figurative mosaic art achieves a unique balance between heritage and creativity. Through meticulous craftsmanship, every detail comes to life, turning this art form into a timeless and expressive medium.

What surface to lay mosaic on ?

We work on all types of surfaces from mural frescos to reception counters, storefront entrances, objects, and furniture.

From graphic design to the creation of mosaics, we are able to offer you a comprehensive and tailor-made service.

1 Graphic design

Option

Chifoumi Studio offers you a bespoke graphic design service, including lettering, illustrations, logos, and patterns. Each project is given a personalized study to best meet your expectations.

Based on your creative brief and moodboard, we design graphics tailored to the medium of mosaics, carefully selecting materials that will enhance your image.

2 Production process

Tile Layout

Creation of the tile layout based on your design or one created by our graphic studio.

✓ **Validation of the tile layout and materials for production.**

Printing the tile layout at full scale on a plotter.

Production

The mosaic is handcrafted in our workshop. Each tile is cut by hand, then assembled and glued onto a mesh, ensuring a precise result that faithfully reflects the designs.

✓ **Photos of the ongoing production process, as well as the finished piece, are sent throughout the production.**

Delivery

The mosaic is cut into panels for transport and installation.

There is an option for framed panels, joined and glued onto a stretcher (additional installation and finishing option).

The mosaics are delivered in a custom wooden box by our carrier.

✓ **Reception of the artwork on-site. Validation of the delivery note.**

3 Installation

Installation is an additional service not included, with separate pricing provided in a quote from one of our installation partners.

If you prefer to work with your own tiler, we can provide a recommended installation guideline. We also offer on-site support days to assist the tiler during the installation of the artwork.
